

DEPURECO AIR VACUUMS – AC SERIES

MODELS AC 65 / 100 / 175

AC Series Industrial Air Vacuum
65L, 100L & 175Litre Models Available

The Depureco AC Series Air Vacuums are heavy industrial grade machines that provide high performance and dust filtration efficiency combined with low maintenance and long asset life. The AC series air vacuums are ideal in harsh applications as they have no moving parts within the vacuum system, no moving parts means less wear and tear and high reliability.

The AC series can be used to pick up wet or dry, and have the added feature of a wheel away debris hopper. The debris hopper is simply lowered to the ground with the push of a lever, then it can be wheeled away for easy emptying.

The AC series is of all steel construction, featuring powder coated finishing for maximum resistance against corrosion. The AC series also features a manual filter shaker as a standard feature, along with a choice of filters to suit a wide variety of applications.

The AC series is available in a variety of capacities, 65L, 100L and 175 Litre, and with a variety of filters to suit most industrial applications. The AC also features heavy duty castors for extra long life and ease of use, along with a handy storage basket to contain all the necessary vacuum tools and accessories.
